Approaches to learning Tip of the Week: Proper Research and Citing Original Work

Skill Focus: Research

Understand the School Academic Integrity Policy: Familiarize yourself with types of academic misconduct and strategies to practice creating original work. (See pages 14-15 of our school agenda).

Keep Track of Your Sources: Use tools like a simple google doc to keep track of all your sources. Record all necessary details (author, title, publication date, URL) as you gather information.

Paraphrase and Summarize: Instead of copying text, paraphrase or summarize the information in your own words. Even when paraphrasing, always provide a citation to the original source. **This also applies to the use AI technology.**

Properly Attribute Images and Media: Always provide proper attribution for images, videos, and other media. Include the creator's name, title, source, and license. Use tools like Google Images' usage rights filter to find images that are free to use.

If you have any questions, feel free to ask your teachers or Ms. Molly our school librarian.

Why It Helps: Creates a school climate of enhancing credibility and integrity and respecting intellectual property. Also, to encourage and promote original thought and work!

“The question today is not whether you have Intellectual Property; it is whether you know how to use your Intellectual Property”

IB learner profile of the month ! (NOVEMBER)!!!!

This month we are looking to celebrate the IB learner profile trait of being good **“RISK TAKER”**.

ATLs will be based on:

Grade 7-8
Social-Collaboration
Communication-Interaction

Grade 11
Critical Thinking

Month of November will be selected by the IB Physical and Health Education teachers at the end of the month!

Students who are risk-takers are willing to step outside their comfort zone and try something new in the hopes of gaining new knowledge or additional skills. They are comfortable being challenged and welcome opportunities to explore new ideas.
