

The IB Assessment process

Understanding the IB assessment process

Each course contains four major criteria that teachers will assess throughout the school year (see below). While all four criteria will be assessed throughout the school year, teachers will likely only focus on one or two criteria per term. Students receive one report card in June indicating a level from 0 to 7 in each subject area. *There will not be a letter grade or percentage.*

By June, each student's final achievement level is based on their criterion performance over the year. The final achievement level will be translated for a maximum score out of 32 and then converted into a final level from 0 to 7. *See below.*

Please note that assessment results are not meant to be read as a "mark out of."

For example: a "3" ≠ 3/8(38%) but rather the "3" will be in reference to the descriptor of the student's progress.

In aligning with our International Baccalaureate philosophy, we are employing best practices in assessment. This criterion--referenced assessment allows for us to provide clear and meaningful feedback for you and your child. Below are the criterion assessment assigned to each class.

Language & Literature			Language Acquisition		
Criterion A	Analyzing	Maximum 8	Criterion A	Compréhension orale	Maximum 8
