

How to create your account on the Fusion Parental Portal

Creating an account is a two-step process for security purposes.

- 1) You will use the link below to go to our Fusion website and create your account.
- 2) Following the successful creation, you will receive an email with a validation link, and by clicking on that link, you will be returned to the Fusion site to login. Your account is now active.

The information required to create your account:

- 1) The email address you provided to the school/centre to contact you at, and is currently in our systems (Note: The same email address that you are receiving email notifications from the school)

- 2) Create a secure password (It is suggested you use a combination of letters, numbers and characters to ensure that your password is as secure as possible)
